FOREWORD

I am glad for having gone through the book "THE MEANING OF DIFFICULT WORDS IN SANTALI" compiled by Sri Kirtu Murmu and Sri Biriya Charan Tudu. It is their an effort by various circumstances they went on ahead with job and achieve the goal. They have gone through many Santali books written by the writers of various regions. Usually the words used there in many differ from region to region and sometimes it make the reader in critical situation. The 'Baha song' carried on generation after generation by the Santal people, there are many difficult words which can not be understand easily. So they thought, it is necessary to remove the doubt of the general readers as well as the well wishers of the Santali literature and they compiled it. I hope the book is very helpful to the all concerned.
